Hood's Sarsaparilla

Mrs. Marion Bruce, Cumberland, Me., writes: "I have taken Hood's Sarsaparilla for a great many years, and I think it the best blood medicine in the world. I take it both spring and fall. This last winter and spring I was inspected by and spring I was in very poor health. I was weak and had lost all my appetite, and I was all run down. As soon as I began to take Hool's Sarsaparilla my strength came back and my appetite returned. I am now well, do my housework, and no longer have that tired feeling."

To Relieve a Cold

(By request.) IF.

A very simple but effective treatment for colds—especially tight chests and hoarseness, also cold in the head—is Mentolated Suet applied externally. Rub in well over the lungs, cover with a warm cloth, and let it remain overnight; also apply to the throat in same manner. Swallow a small piece of the Suet, or if it is a cold in the head, put a small bit well up each nostril.

Bowling

to the latter. The race for the teatership of the Richmond Bowling Association in a nip and tuck one, as but ave points separate the Remingtons and Alces. The Alcos finished their season last night, while the Remingtons are scheduled to bowl a post-poned, but owing to spell of slekkness, which has confined Captain Bell, of The Times-Dispatch to his home for the past week, the above postponed games may be bowled on Tuesday, April 9. The Alcos rolled in one form, both as team and as individuals. Captain Gallagher captured high score and high total, with Whitman a close second. The scores.

Sparks From Engine, Fanned by Wind, Threaten Serious Damage.

Sparks from a passing locomotive set fire to the Atlantic Coast Line Railway bridge over James River about 1130 o'clock this morning at a point just over the trestle of the Chesapeake and Onio Railway. Fanned by the high wind, the blaze worked its way into the wooden trestle work and side walkway, and was first seen by a chauffeur of a Richmond Transfer taxicab returning from a late South Richmond call. The driver turned in an alarm from Ninth and Arch Streets. There being no way of getting at

Industrial Plants Inundated, Gas Water Reaches Second Stories Works Threatened and People Without Homes.

Using Sand Bags.

In the Memphis district the White River front is giving the greatest concern. To-night the water is near the district of the embankment and before the highest stage is reached it is probable that the levee will be topped.

Modoc, Ark., thirty miles south of Helena, sent in an alarming report of sloughing banks, and aid is being turried to that point. If this levee should break, the greater part of Philips county, Ark, would be inundated. In Tennessee the levee in Obion county, which protects Reelfoot Lake from flood water, is already being topped, and sandbags are being stacked on the levee in an effort to hold back the flood. South of Memphis as the levees are holding, but many thousands of acres are under water and the levee debate here to-night.

Supreme Officer Visits Lodge.

in Houses at Hick-

Momphis, Tenn., April 2.—With the greatest volume of water in history racing down the Mississippi River, the main banks of the great waterway remained intact to-night, but private levees are breaking, and whether the withstand the additional two feet of water or more predicted is problematical. Government engineers assert that the levees are in better shape than during any previous flood. River men are less optimistic than the government are less optimistic than the government are less optimistic than the government county, near Commerce, and another back in Bird's Point, Mo. These outlets have relieved to some extent the strain at Cairo. At Bird's Point a negro was drowned, the first fatality of the flood.

At Point Pleasant, Mo., where the river went through several days ago, a mile of levee is gone. The lowlands are flooded to a depth of four or five feet and the water is pouring into the St. Francis River basin. This is all the immediate basin of that river can at the immediate basin of the river can at the

stacked on the levee in an effort to hold back the flood South of Memphis the levees are holding, but many thousands of acres are under water, and the inhabitants have sought safety on the hills.

Memphis proper is facing a serious situation. In North Memphis back water from Wolf River, a tributary of the Mississippi, has overflowed Bayon Gayoso. Several hundred families have been driven from their homes, and a score or more industrial plants have been forced to suspend. The city's gas plant is surrounded by water, and pumps are being worked continuously to remove the scopage.

The reserve supply of gas in the reservoirs will supply Memphis for not more than sixteen hours.

Train service into Memphis is demoralized.

Annual Sephomore Debate at Triulty College.

[Special to The Times-Dispatch.]

Lurham, N. C., April 2.—In the annual sophomore debate here to-night W. F. Starnes was awarded the prize, a set of books given by James H. Southgate, for the delivery of the best speech. The other members of the class who spoke are James Cannon, Jr., M. R. Pleasants, J. O. Renfre, J. R. Davis and M. R. Andrews. Dr. Frank C. Brown, of the English department, presided, while B. S. Skinner, J. F. Wiley and Dr. C. A. Woodard, all of Durham, were the judges of the contest. The question discussed was that of recall in local government.

After debate the class gave an informal reception in honor of the speakers.
